NUMBER OF PAGES INCLUDING COVER SHEET----1

Notification of herbicide applications

Just another update, it looks like we are going to start a spray reduction program of herbicides on Highway 36.

We still plan to begin our noxious weed and structure program. We are looking at only three of the Department of Ag listed noxious weeds at this point on Highway 36. Japanese Knotweed, which is a waste to spray until full bloom in September, Gorse and Knapweed.

Starting June 14th to June 24th we will be making applications to these noxious weeds and around our structures, bridges, intersections, and guardrail.

For the rest of June thru the month of July we will be making spot spray applications to our noxious weeds in Lane County on State right- of -way. Included in that, will be some Gorse applications on Highway 101 North of Florence.

For daily information, please, call the ODOT Herbicide Application Information Line at 1-888 996-8080. The herbicide application schedules is tentative and is subject to change at any time.
