

State of Oregon  
Department of Forestry / Department of Revenue  
Notification number: 2007-781-50581 [78127469] 07 Aerial SitePrep/Fall Brush

Attached is the processed information from the Notification of Operation and/or Application for Permits.

Please review this information and retain for future reference.

**[X]** - Notice is given to the State Forester that an operation will be conducted on the lands described herein (ORS 527.670).

n

I. WHERE TIMBER HARVESTING IS PART OF THE PROPOSED OPERATION:

A. NOTICE TO TIMBER OWNER: Party owning the harvested timber at the point it is first measured is shown in the section marked TIMBER OWNER and is responsible for payment of Oregon timber taxes.

B. NOTICE TO LAND OWNER: Party shown in the section marked LAND OWNER is responsible for reforestation of the site if so required.

District: **Western Lane**  
Office: **Veneta**

County: **Lane**  
WOSTOT:

Received by ODF on May 21, 2007 by mail

**\*15 DAY WAITING PERIOD REQUIRED\***

II. WRITTEN PLANS:

**[ ]** - A WRITTEN PLAN may be required before certain activities can commence on the Operation.

A WRITTEN PLAN may be required for the situations indicated by an **[X]** below. A WRITTEN PLAN must be submitted or a WRITTEN WAIVER must be obtained from the State Forester before any portion of the operation may commence.

**[X]** - Within 100 feet of a large lake or Type F or Type D stream.  
[OAR 629-605-170(1)(a)]

**[ ]** - Within 300 feet of a wildlife resource site listed in the 1984 ODF/ODFW Cooperative Agreement. [OAR 629-605-170(1)(b)]

**[ ]** - Within 300 feet of any resource identified in the Divisions 645 or 665 of the administrative rules. [OAR 629-605-170(1)(c)]

**[ ]** - Within 300 feet of a state or federally listed threatened or endangered wildlife resource site. [OAR 629-605-170(1)(d)]

Please contact the Oregon Department of Forestry forester named on the Unit Information sheet for further information on requirements that may be necessary to meet before any activity/operation begins.

Signed by **Mike Emmons** - representing the Land owner.

Re: Written Plan for 2007 Operations

Seneca Jones Timber Company herein submits a written plan for operations near a resource protection area. In accordance with the Oregon Forest Practices Act, these operations shall provide equal or better protection for the environment while enhancing effectiveness of forest management operations and achievement of the desired future condition. This written plan is based on the following information:

Type of Operation:	Aerial Herbicide Application		
Unit:	<u>South Camus 04</u>	<u>T20S, R4W, Section 04</u>	<u>20 acres</u>
Reason for Plan:	Operation within 100' of type 'F' class stream		

Information:

Barlow Creek flows on the northern edge of our herbicide application unit. Residual conifers and hardwoods exist along the streams edges. This specific resource protection area is identified on the attached map as well as the stream classification of a medium fish. This stream is classed as a medium, 'F' or fish-bearing stream, in this area. Seneca plans to directly apply herbicides adjacent to the indicated watercourse but no closer than 60 feet. This will allow the buffer to protect the stream from any potential drift or error of application and maintain shade on the watercourse. This herbicide operation will utilize herbicides primarily for control of herbaceous vegetation and hardwood sprouts.

The protection of this stream zone will be ensured by Seneca's continued dedication to the proper application of herbicides through the following practices. The on-site Seneca representative will perform a pre-application reconnaissance flight to delineate unit boundaries and resource protection areas with applicator, and to establish a final application plan in accordance with the Oregon Forest Practices Act and EPA Pesticide Label directions and precautions. Considering specific weather and unit conditions at the time of application, this plan may include, but not be limited to: the utilization of appropriate nozzle size and orientation; modifications to application system and boom length, or half boom applications; and continuous weather monitoring to assess risk and continued plan success. These stream zone protection measures are consistent with best management practices and will not affect any of the existing required components of the riparian management zone.

In closing we believe these measures will benefit both the environment and the operations of Seneca Jones Timber Company. If there are any concerns or more appropriate measures to be considered, please telephone our office at 541-461-6245. Otherwise, we will anticipate your approval of this measure and proceed as indicated during our operations.

Sincerely,

Mike Emmons  
Silvicultural Forester

Re: Written Plan for 2007 Operations

Seneca Jones Timber Company herein submits a written plan for operations near a resource protection area. In accordance with the Oregon Forest Practices Act, these operations shall provide equal or better protection for the environment while enhancing effectiveness of forest management operations and achievement of the desired future condition. This written plan is based on the following information:

Type of Operation: Aerial Herbicide Application  
Unit: Hawley Four T20S, R4W, Section 04 79 acres  
Reason for Plan: Operation within 100' of type 'F' class stream

Information:

Barlow Creek flows on the northern edge of our herbicide application unit. Residual conifers and hardwoods exist along the streams edges. This specific resource protection area is identified on the attached map as well as the stream classification of a medium fish. This stream is classed as a medium, 'F' or fish-bearing stream, in this area. Seneca plans to directly apply herbicides adjacent to the indicated watercourse but no closer than 60 feet. This will allow the buffer to protect the stream from any potential drift or error of application and maintain shade on the watercourse. This herbicide operation will utilize herbicides primarily for control of herbaceous vegetation and hardwood sprouts.

The protection of this stream zone will be ensured by Seneca's continued dedication to the proper application of herbicides through the following practices. The on-site Seneca representative will perform a pre-application reconnaissance flight to delineate unit boundaries and resource protection areas with applicator, and to establish a final application plan in accordance with the Oregon Forest Practices Act and EPA Pesticide Label directions and precautions. Considering specific weather and unit conditions at the time of application, this plan may include, but not be limited to: the utilization of appropriate nozzle size and orientation; modifications to application system and boom length, or half boom applications; and continuous weather monitoring to assess risk and continued plan success. These stream zone protection measures are consistent with best management practices and will not affect any of the existing required components of the riparian management zone.

In closing we believe these measures will benefit both the environment and the operations of Seneca Jones Timber Company. If there are any concerns or more appropriate measures to be considered, please telephone our office at 541-461-6245. Otherwise, we will anticipate your approval of this measure and proceed as indicated during our operations.

Sincerely,

Mike Emmons  
Silvicultural Forester
