## WRITTEN PLAN OF OPERATION FOR Manual Release

Weyerhaeuser Company is planning a Chainsaw Manual Release operation near protected resources. This letter is our submission of a written plan of operation for activities within 100 feet of protected resources. The attached plat shows the unit boundaries and resources to be protected

On all "F" and "D" streams hi-lighted on attached map, all vegetation within 10' of high water level and trees that lean over the channel will be retained. In areas of this operation where a buffer exists from previous harvest activity, that buffer will be left intact

"No cut" buffer areas will be identified with crew forman prior to beginning operations.
