Activity	Method	Acres	Feet	MBF	Comment
4a - Herbicide Application	Aerial operation / applications; Ground	57.00	0	0	7B Beckley; Common: Atrazine, Clopyralid, Glyphosate, Hexazinone, Imazapyr, Metsulfuron methyl, Sulfometuron methyl, Triclopyr, Triclopyr Amine, Triclopyr Ester; Additives: Non-Ionic Surfactant

Resource Name	Resource Description
Tributaries to Sturtevant Creek	Tributaries to Sturtevant Creek: Small Unknown
Tributaries to Wolf Creek	Tributaries to Wolf Creek: Small Unknown
Northern Spotted Owl site	
Subscribers: Forestland Dwellers	

**Aerial Spray / Hand Spray Plan**  
 Applicator: Roseburg Resources Co.  
 Unit Name TB Beckley  
 Unit Number 1 Acres 57  
 Targets: shrubs, grasses, woody Brush

Aerial Appl. Rate: 5 gal/acre Carrier: Water  
 Hand Appl. Rate: 10 gal/acre Carrier: Water

Chemicals to be used singularly or in combination:  
 Atrazine  
 Clopyralid  
 Glyphosate  
 Hexazinone  
 Imazapyr  
 Metsulfuron Methyl  
 Sulfometuron Methyl  
 nonionic surfactant

Other: Triclopyr ester  
Triclopyr amine

WRITTEN PLAN REQUIRED:  YES  NO  
**WRITTEN PLAN**

All chemical application rules specified in the Oregon Forest Practices Act will be adhered to. A buffer strip parallel to each fish bearing or domestic stream will be left to protect water from the direct application of chemicals. Protected resources will be reviewed with the applicator prior to application. A Company Forester will be nearby to monitor weather.

**Additional Mitigating Measures:**

- Hardwoods left by logging within the Riparian Zone will not be targeted by treatment.
- The helicopter used for applying herbicides to Roseburg Resources plantations will be equipped with and may implement a unique half boom shutoff system which can limit the swath width to approximately 25 feet, and will more accurately align the swath edge under the center of the helicopter while reducing drift. This system will be implemented in areas where site and environmental conditions ( terrain, weather, RMA width, etc.) dictate the need for additional protection measures.
- Application will comply with all regulations pertaining to seasonal and temporal restrictions around the identified wildlife resource site.
- No hand application will occur within 10' of the aquatic area of the identified stream.

Robert Ahrens 12/10/13  
 Landowner Representative
