

October 20th, 2014

Hi Dan,

We wanted to send you a letter concerning our plans for the RMA located on our property. When weather permits, we plan to burn the slash piles located within the RMA. After the slash piles are burned, we plan to mow the replanting areas and easement with a brush machine. We will make sure to follow the guidelines listed below:

Spot treat no closer than 20 ft from the creek

Apply herbicide during a calm day to minimize the drift of the overspray

Mix chemicals 100 ft or more away from the RMA and then walk in

If you need any further information please do not hesitate to contact us.

Thank you,

Nicole and Sean Martin
