

State of Oregon
Department of Forestry / Department of Revenue
Notification number: 2006-771-55962 [77122506] Aerial Spray

Attached is the processed information from the Notification of Operation and/or Application for Permits.

Please review this information and retain for future reference.

- Notice is given to the State Forester that an operation will be conducted on the lands described herein (ORS 527.670).

- A permit to operate power driven machinery is issued for the lands described herein (ORS 477.625)

No application will be made within 100' of type F or D streams. These areas will be buffered. Follow applicant remarks. Written plan received 10-6-06.

I. WHERE TIMBER HARVESTING IS PART OF THE PROPOSED OPERATION:

A. NOTICE TO TIMBER OWNER: Party owning the harvested timber at the point it is first measured is shown in the section marked TIMBER OWNER and is responsible for payment of Oregon timber taxes.

B. NOTICE TO LAND OWNER: Party shown in the section marked LAND OWNER is responsible for reforestation of the site if so required.

II. WRITTEN PLANS:

- A WRITTEN PLAN may be required before certain activities can commence on the Operation.

A WRITTEN PLAN may be required for the situations indicated by an below. A WRITTEN PLAN must be submitted or a WRITTEN WAIVER must be obtained from the State Forester before any portion of the operation may commence.

- Within 100 feet of a large lake or Type F or Type D stream. [OAR 629-605-170(1)(a)]

- Within 300 feet of a wildlife resource site listed in the 1984 ODF/ODFW Cooperative Agreement. [OAR 629-605-170(1)(b)]

- Within 300 feet of any resource identified in the Divisions 645 or 665 of the administrative rules. [OAR 629-605-170(1)(c)]

- Within 300 feet of a state or federally listed threatened or endangered wildlife resource site. [OAR 629-605-170(1)(d)]

Please contact the Oregon Department of Forestry forester named on the Unit Information sheet for further information on requirements that may be necessary to meet before any activity/operation begins.

RE: Written Plan for Aerial Application of Urea for Forest Fertilization

Weyerhaeuser Company is planning aerial application of urea for forest fertilization near protected resources. This letter is our submission of a written plan of operation for activities. It is my intent for this plan to cover the entire project.

When operating with 100 feet of Type F streams, in order to ensure that no direct application of fertilizer occurs to type F (small, medium or large) streams, type N (medium or large) streams and their aquatic areas, or to areas of standing open water greater than one quarter acre in size, all streams of these types and open water of this size within the project area will have buffers of at least 60ft. Any type D streams or domestic use portions of type F streams within the project area will have buffers of at least 100ft.

When operating within 0.5 miles of Northern Spotted Owl activity centers, no nest sites shall be overflown. During the critical period of use (March 1st thru September 30th) no fertilization activity will be conducted within 0.25 miles of activity centers.

The pilots (applicators) will be provided with area maps and GPS coordinates showing boundary areas of the fertilization areas and any protected resources.

Sincerely,

Bonnie L. Covell
