## WRITTEN PLAN OF OPERATION FOR 2007 SPRINGFIELD ROADSIDE HERBICIDE APPLICATION

Weyerhaeuser Company is planning roadside/road surface spray applications targeting broadleaf and/or herbaceous vegetation near protected resources on portions of the Springfield Operating Area highlighted on the map submitted to ODF. This letter is our submission of a written plan of operation for activities within 100 feet of protected resources. Chemical will not be mixed or loaded within 100 feet of protected resources.

No herbicide will be directly applied within 10 feet of the high water mark of any protected resource defined as F or D stream, lakes, significant wetlands and other areas of standing open water greater than one-quarter acre at the time of application. Protected resource status will also be given to "unknown streams" shown on map. All application will be done in compliance with the Oregon Forest Practices Rules and label instructions.

Landowner will identify the above-protected resources with crew foreman prior to application by means of aerial photos, maps and/or ground visits to provide operator with adequate information to properly treat the area.

Operation name 2007 MOHAWK/MCKENZIE ROAD SPRAY #1
