WRITTEN PLAN OF OPERATION FOR ROADSIDE HERBICIDE APPLICATION

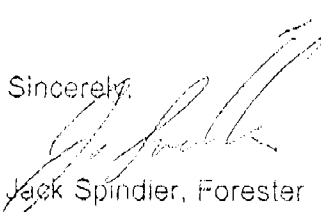

8/8/2007

Weyerhaeuser Company is planning roadside/road surface spray applications targeting broadleaf and/or herbaceous vegetation near protected resources. This letter is our submission of a written plan of operation for activities within 100 feet of protected resources. The maps submitted with the ODF notification shows the Weyerhaeuser Property boundaries. All roads within the ownership on the notification may be sprayed. The known fish and domestic resources to be protected are shown on the maps. Chemical will not be mixed, handled or staged within 100 feet of protected resources.

No herbicide will be directly applied within 10 feet of the high water mark of any protected resource defined as F or D stream, lakes, significant wetlands and other areas of standing open water greater than one-quarter acre at the time of application. All application will be done in compliance with the Oregon Forest Practices Rules and label instructions.

Landowner will identify the above-protected resources with crew foreman prior to application by means of aerial photos, maps and/or ground visits to provide operator with adequate information to properly treat the area.

Sincerely,

Jack Spindler, Forester
South Valley Area

Operator
