

State of Oregon
Department of Forestry / Department of Revenue
Notification number: 2008-771-55066 [77123739] Aerial Spray

* REPRINT *

Attached is the processed information from the Notification of Operation and/or Application for Permits.
Please review this information and retain for future reference.

- Notice is given to the State Forester that an operation will be conducted on the lands described herein (ORS 527.670).
- A permit to operate power driven machinery is issued for the lands described herein (ORS 477.625)

Written plans received 1-8-08.

I. WHERE TIMBER HARVESTING IS PART OF THE PROPOSED OPERATION:

District: **South Cascade**
Office: **Eastern Lane**

County: **Lane**
WOSTOT:

A. NOTICE TO TIMBER OWNER: Party owning the harvested timber at the point it is first measured is shown in the section marked TIMBER OWNER and is responsible for payment of Oregon timber taxes.

B. NOTICE TO LAND OWNER: Party shown in the section marked LAND OWNER is responsible for reforestation of the site if so required.

Received by ODF on January 8, 2008 by fax

15 DAY WAITING PERIOD REQUIRED

II. WRITTEN PLANS:

- A WRITTEN PLAN may be required before certain activities can commence on the Operation.

A WRITTEN PLAN may be required for the situations indicated by an below. A WRITTEN PLAN must be submitted or a WRITTEN WAIVER must be obtained from the State Forester before any portion of the operation may commence.

- Within 100 feet of a large lake or Type F or Type D stream. [OAR 629-605-170(1)(a)]
- Within 300 feet of a wildlife resource site listed in the 1984 ODF/ODFW Cooperative Agreement. [OAR 629-605-170(1)(b)]
- Within 300 feet of any resource identified in the Divisions 645 or 665 of the administrative rules. [OAR 629-605-170(1)(c)]
- Within 300 feet of a state or federally listed threatened or endangered wildlife resource site. [OAR 629-605-170(1)(d)]

Please contact the Oregon Department of Forestry forester named on the Unit Information sheet for further information on requirements that may be necessary to meet before any activity/operation begins.

Signed by **Bonnie L. Covell** - representing the Land owner.

***** NOTICE *****

The State Forester has determined that the following items requiring your attention are located within or adjacent to your operation area:

- Concerns - Resources - Water

RE: Aerial Broadcast Spray Operations Written Plan.

Legal Description: SEC: 18 TWN: 15s RNG: 1W

Unit #: 3325

Stream (s) name: unnamed SF tribs to Seeley Cr

No herbicides will be applied directly within 60 feet of type F and D streams, lakes, significant wetlands, or other areas of standing open water larger than one quarter acre at time of application. All vegetation required to be protected by the water protection rules within the riparian management areas will be protected. No vegetation will be treated within buffer strips left during logging.

Comments:

Fish blocked by culvert at Seeley Cr. Rd. Gradient remains ~ 20% for about 800ft, but drainage is broken up by drow and water flow is variable by season. Drainage is less than 90 acres. The EAST boundary of the unit above the "90 acre" drainage will be buffered at least 30 feet.

Please review this plan, sign and return the original to my attention.
Thank you.

RE: Written Plan for Aerial Application of Herbicide

Weyerhaeuser Company is planning aerial application of herbicide near protected resources. This letter is our submission of a written plan of operation for activities in unit # 3308, located in 16s 2w 20.

The planned operation is within 100ft of McGowen Cr and its Small Fish tributaries. No herbicides will be applied directly within 60 feet of type F and D streams, lakes, significant wetlands, or other areas of standing open water larger than one quarter acre at time of application. All vegetation required to be protected by the water protection rules within the riparian management areas will be protected. No vegetation will be treated within buffer strips left during logging. All herbicide application within 100ft of water resources will be flown parallel to the edge of the water.

The planned operation is within 0.5 mile of a Northern Spotted Owl activity center. When operating within 0.5 miles of Northern Spotted Owl activity centers, no nest sites shall be overflown. During the critical period of use (March 1st thru September 30th) no activity will be conducted within 0.25 miles of activity centers. Where operationally possible and if no conflict exists with water resource protection, application swaths will be flown parallel to the boundary of the owl management area.

The pilots (applicators) will be provided with area maps and GPS coordinates showing boundary areas of the spray areas and any protected resources.

Sincerely,

Bonnie L. Covell
