

State of Oregon
Department of Forestry - Department of Revenue
Notification Number: 2011-771-00170
Timber Sale: Aerial Spray

Attached is the processed information from the Notification of Operation/Application for Permit signed by Eduardo Lamothe representing the Land Owner, and received by Department of Forestry on March 2, 2011. Please review this information and retain for future reference.

Notices and Permits

Notice is given to the State Forester that an operation will be conducted on the lands described herein.

A permit to use fire or operate power driven machinery is issued for the land described herein.

SF Comments: Written Plan received.

LEGAL NOTICE

The following section provides legal notification of the requirement to submit a written plan before certain portions of this Operation may begin. The requirements are indicated below:

A statutory Written Plan is required before operation activities begin near the protected resource(s) listed in the following Unit Information Page(s) or otherwise described to you by the Stewardship Forester (see OAR 629-605-0170(1)).

The Written Plan must describe in detail how the resource(s) will be protected during the operation. There is a waiting period for written plans that is separate from the notification waiting period. Contact the Stewardship Forester shown on the following Unit Information Page(s) for more information on Written Plans and waiting periods.

Notification 15 Day Waiting Period:

This Operation is subject to the 15 day Waiting Period.

WRITTEN PLAN OF OPERATION FOR AERIAL HERBICIDE APPLICATION

Weyerhaeuser Company is planning aerial broadcast spray applications targeting broadleaf and/or herbaceous vegetation near protected resources. This letter is our submission of a written plan of operation for activities within 100 feet of protected resources. The plat submitted with the ODF notification shows the unit boundaries and resources to be protected.

No herbicide will be directly applied within 60 feet of the high water mark of any protected resource defined as F or D stream, lakes, significant wetlands and other areas of standing open water greater than one-quarter acre at the time of application. No treatment of existing streamside buffer strips from previous harvest activities will be done. All application will be done in compliance with the Oregon Forest Practices Rules and label instructions.

Landowner will identify the above-protected resources with crew foreman prior to application by means of aerial photos, maps and/or ground visits to provide operator with adequate information to properly treat the area.

Unit # 1320
