4a - Herbicide Application	Aerial operation / applications; Ground	31.00	0	0	Common: Atrazine, Clopyralid, Glyphosate, Hexazinone, Imazapyr, Metsulfuron methyl, Sulfometuron methyl, Triclopyr Amine, Triclopyr Ester; Additives: Non-Ionic Surfactant, Oil Surfactant

Resource Name

Tributaries to Sturtevant Creek

Resource Description

Tributaries to Sturtevant Creek: Small Unknown
 No Threatened or Endangered Species Found.
 No Special Concerns Found.

Subscribers:

~~Aerial and Hand Spray Plan~~*Pre-harvest Hack + Squirt*

Applicator: Roseburg Resources Company

Unit # 1 Acres 31Unit Name 7B Canada

Targets: hardwoods, woody brush, herbaceous

Application Rate: 5 - 10 gal/acre. Carrier: water

Chemicals to be used singly or in combination:

Glyphosate

Sulfometuron methyl

Metsulfuron methyl

Imazapyr

Hexazinone

Clopyralid

Atrazine

Triclopyr Ester + Amine

Non-ionic surfactant

Oil surfactant

Other _____

WRITTEN PLAN REQUIRED: YES NO

WRITTEN PLAN

All chemical application rules specified in the Oregon Forest Practices Act will be adhered to. A buffer strip parallel to each fish bearing or domestic stream will be left to protect water from the direct application of chemicals. Protected resources will be reviewed with the applicator prior to application. A Company Forester will be nearby to monitor weather.

Additional Mitigating Measures:

- ☐ For post-harvest applications, all hardwoods left within the Riparian Zone will not be targeted for treatment. For pre-harvest applications, hardwoods within 20' of the waters edge of fish streams will not be treated.

- ☐ The helicopter used for applying herbicides to Roseburg Resources plantations will be equipped with and may implement a unique half boom shutoff system which can limit the swath width to approximately 25 feet, and will more accurately align the swath edge under the center of the helicopter while reducing drift. This system will be implemented in areas where site and environmental conditions (terrain, weather, RMA width, etc.) dictate the need for additional protection measures.

- ☐ Application will comply with all regulations pertaining to seasonal and temporal restrictions around the identified wildlife resource site.

- ☐ No hand application will occur within 10' of the aquatic area of the identified stream.
