REC'D  
3/15/2012

Date: 3/15/2012

Attn: Tim Meehan

RE: Hand Backpack Spray Operations Written Plan.

Legal Description: specified Weyerhaeuser ownership in Lane County  
Unit #: 1  
Stream (s) name: various

The attached plat shows Weyerhaeuser ownership in the indicated sections where noxious weed control ground backpack spraying is planned. The primary target will be scots broom. Additional target species are invasive grasses such as false brome and pampas grass; Himalaya Blackberry, Meadow Knapweed and Japanese knotweed. The chemical glyphosate will be used. In roadside treatments aminopyralid may also be used. Water will be the carrier. A surfactant may be added. Treatment will primarily be along roadsides and on the fringes of young plantations.

No herbicides will be applied directly within 10 feet of type F and D streams, lakes, significant wetlands, or other areas of standing open water larger than one quarter acre at time of application. All vegetation required to be protected by the water protection rules within the riparian management areas will be protected. No vegetation will be treated within buffer strips left during logging.

Thank you.

Bonnie Couell  
Weyerhaeuser Company Representative

March 15<sup>th</sup> 2012  
Date

The following Unit:

1

will be treated with one or more of the following chemicals:

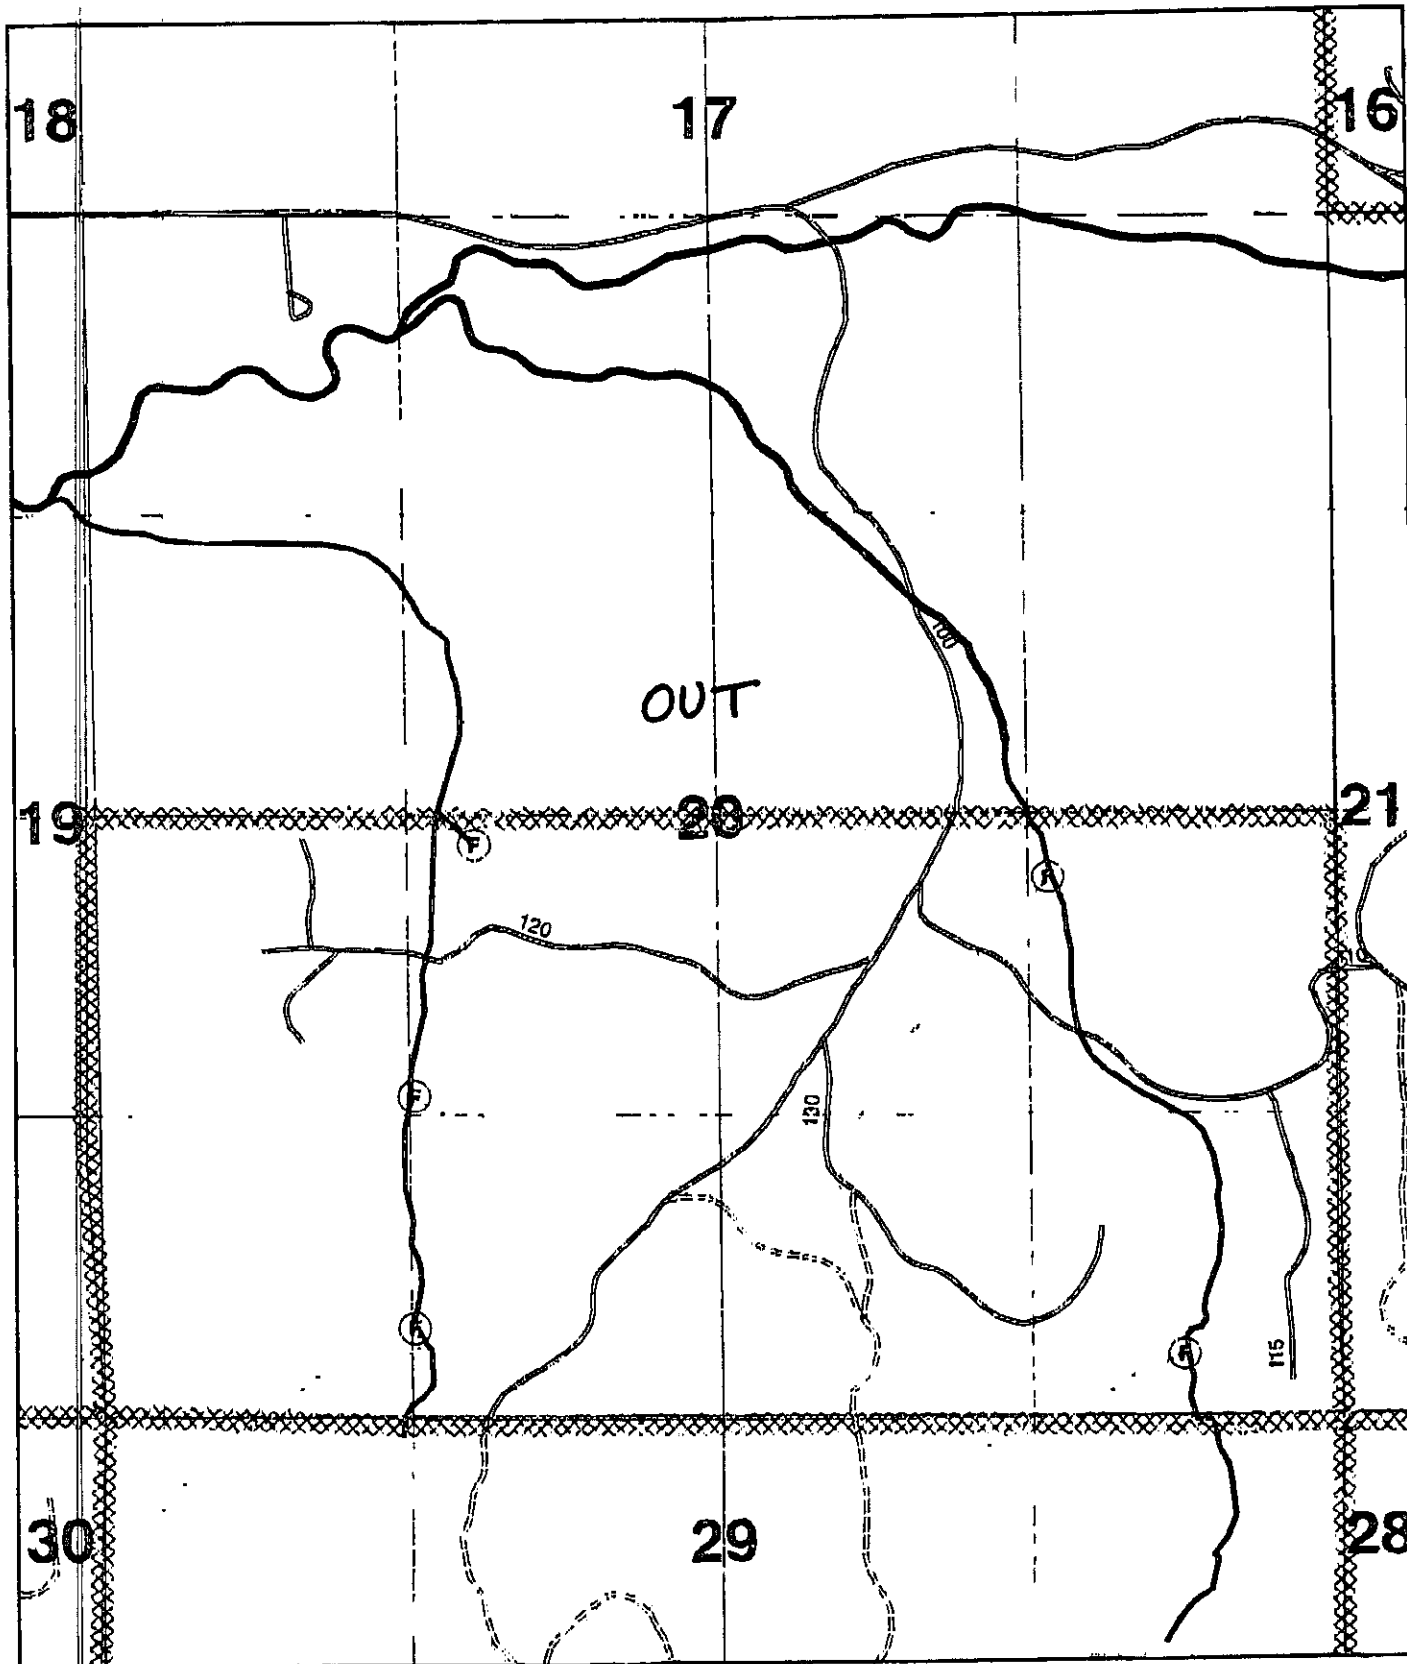

<u>Chemical</u>	<u>Brand Name</u>
Glyphosate	Rodeo
Aminopyralid,	Milestone VM
Sulfometuron Methyl	Sulfomet XP, Oust XP

In addition one or more of the following adjuvants may be used:

<u>Ingredient</u>	<u>Brand name</u>
Silicon surfactant	Sylgard 309, Induce, Kinetic, LI-700
Vegetable Oil + Silicon	Syltac
Vegetable Oil	Hasten, Competitor, MSO
Mineral Oil	Crop Oil concentrate

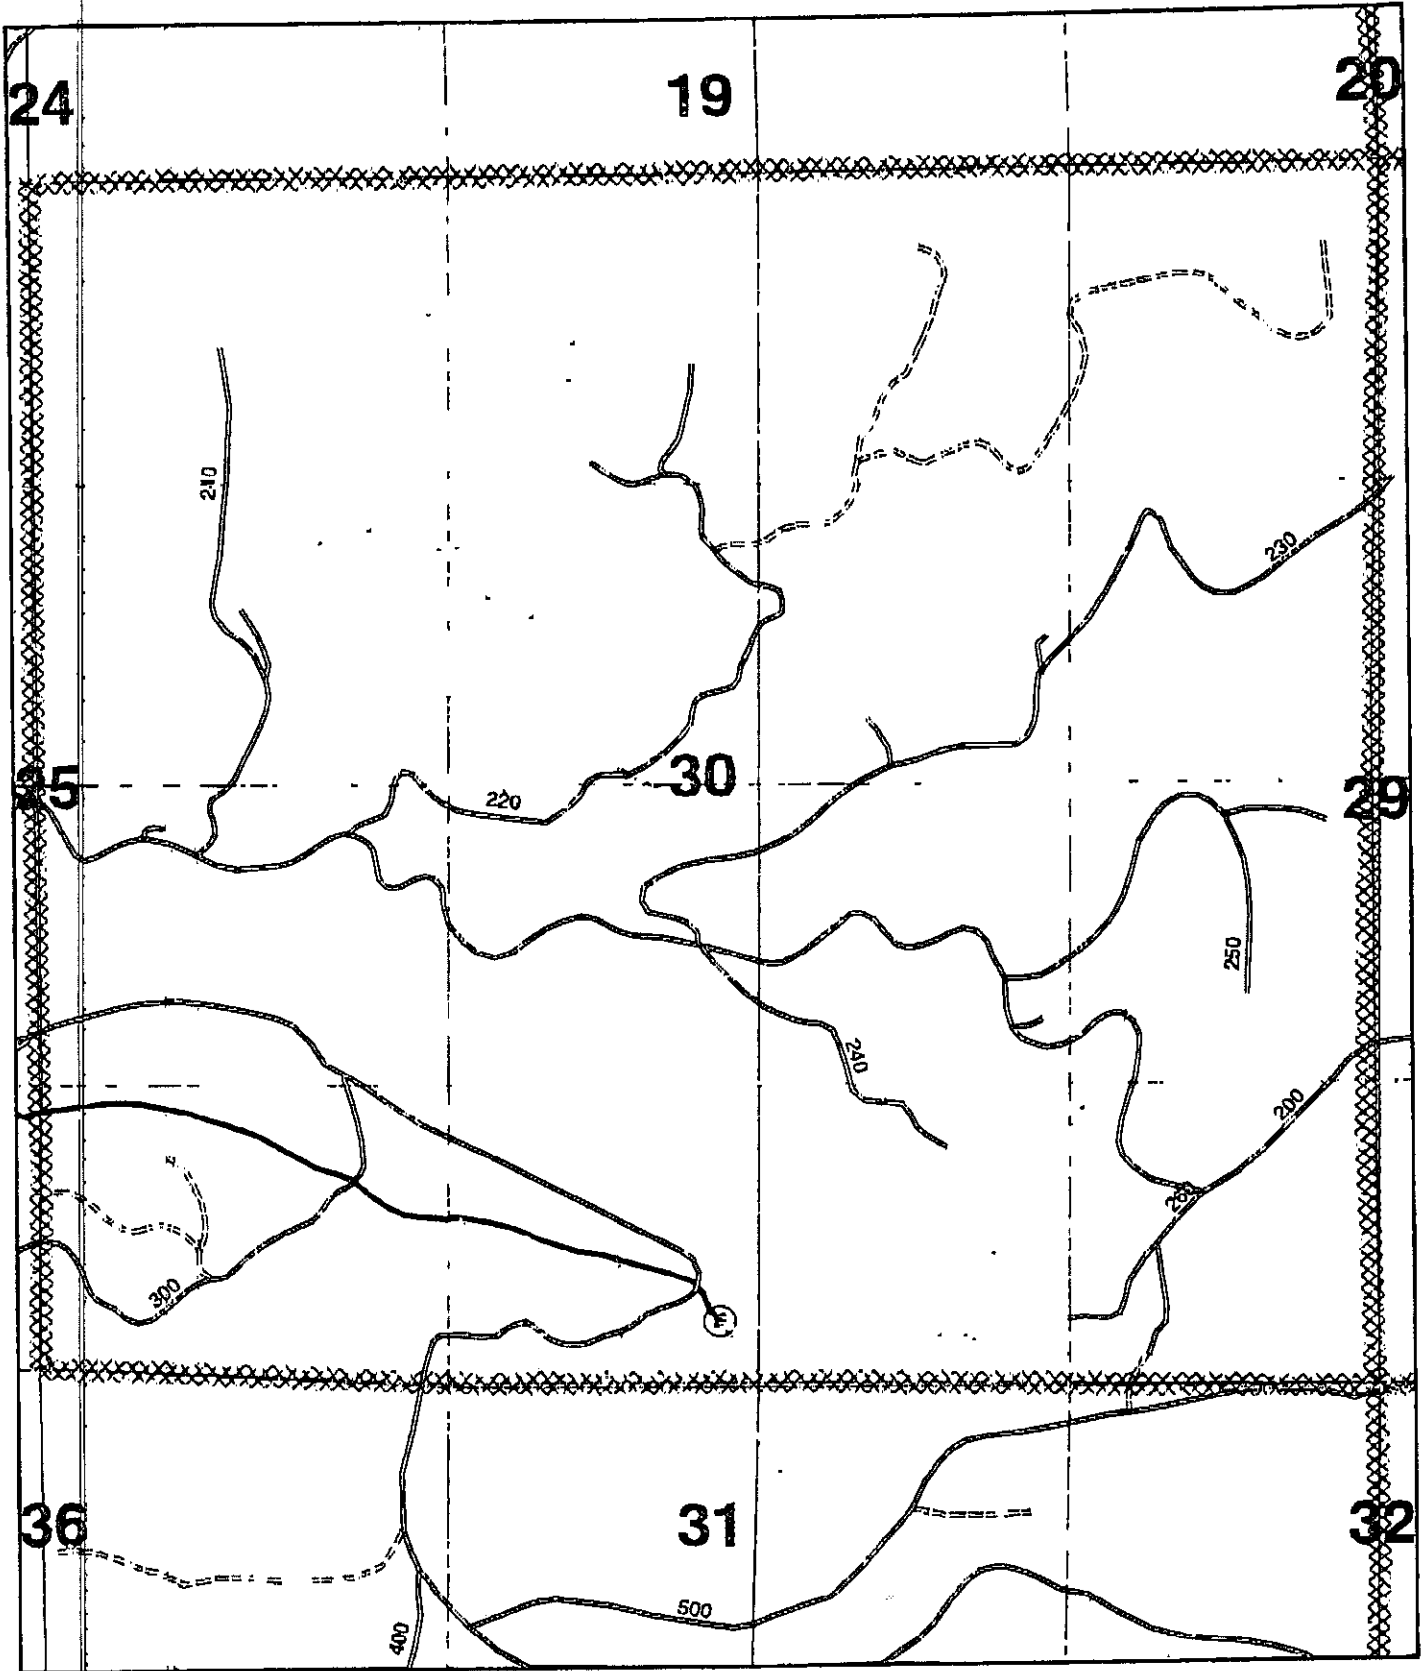

Water will be the carrier for these treatments.
