**Re: Written Plan**

Dear Mr. Meehan:

In accordance with the administrative rules of the Oregon Forest Practices Act, this letter constitutes the written plan for operations near the protected resource(s) identified below:

**Operation Name/Activity:** "Mad Bull Site Prep" – Aerial Application  
**Notification Number:** Not Yet Assigned  
**Legal Location:** T.17S R.4E Sec. 21  
**Protected Resource(s):** Quartz Creek (Lg type F)

Due to the presence of an existing mainline haul road, an alternate practice was implemented in association with Quartz Creek that allowed harvest within the outer portion of the 100-foot RMA along the southeasterly extent of the operation. In a follow-up effort to promote forthcoming conifer plantation establishment (by minimizing/delaying future competing vegetation), site prep application will occur within this same area of the RMA. Said area is at least 60 feet from the protected resource.

Chemicals will be applied in accordance with respective product labels and will not be stored, mixed or batched within 100 feet of the protected resource.

The contents of this written plan are expected to comply with the requirements for the operation adjacent to the disclosed protected resource, and the protection measures described herein are believed to achieve the objectives of the Forest Practices Act. Please let me know if you have additional questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael S. Williams".
