Re: Written Plan for multiple townships for 2014 Roadside Spray Operations

Roseburg Resources Company herein submits a written plan for operations on Oxbow Timber 1, LLC ownership for nine Townships T18S R06W, T18S R07W, T18S R8W, T19S R5W, T19S R6W, T19S R07W, T19S R08W, T19S 09W, T20S R5W, T20S R6W, T20S R7W, T20S R8W, T17S R6W, T17S R7W, T17S 8W, T21S 07W, 22S 07W, in the West Lane Forest Protection District for roadside spray. Actual roads to be sprayed are shown on the attached maps.

Reason for Plan: Operations within 100 feet of Type 'F' and 'D' streams.

Multiple type 'F' and 'D' streams occur across the ownership of Oxbow Timber I, LLC. Roseburg Resources Company plans to apply herbicides within 100 feet of these type 'D' and 'F' streams. Roadside areas to be sprayed include the roadbed itself and the vegetation within 12 feet of the road bed on both sides. We will not directly apply herbicides within 10 feet of any stream.

All label directions will be followed during the application of chemicals. Roadside spray will be done with ground based equipment. Appropriate products will be used to adhere to federal salmon and steelhead stream protection. All herbicide mixing will be done at least 100 feet from any water source. Prior to and during the application, the applicator will monitor weather conditions to assess risk and continued plan success. These stream zone protection measures are consistent with best management practices and will not affect any of the required components of these riparian management zones.

In closing, we believe these measures will benefit both the environment and the operations of Roseburg Resources Company. If there are any concerns or more appropriate measures to be considered, please telephone our office at 541-935-2507. Otherwise, we will anticipate your approval of this measure and proceed as indicated during our operations.

Sincerely,

Forester
