## **WRITTEN PLAN OF OPERATION**

**HARVEST UNIT:** Bill West RW road reconstruction

**LOCATION:** Sections 34, T15S, R7W, Lane County

**NOTIFICATION:** 2014-

### **DISCUSSION:**

Road construction/reconstruction activities are being planned as shown on the attached map. A small domestic stream will be involved with the reconstruction of an existing old grade on this project. During work on these existing road crossings, effort will be made to minimize sediment delivery to the stream, including pumping water around the work site if there is enough water flow to allow pumping at the time of construction. Exposed soils that may deliver sediment to the stream during the wet season will be seeded and mulched, and/or armored with rocky material to minimize erosion.
