**Re: Written Plan**

Dear Ms. Biesecker:

In accordance with the administrative rules of the Oregon Forest Practices Act, this letter constitutes the written plan for operations near the protected resource(s) identified below:

**Operation Name/Activity:** "Lake Creek 2 H&S" – Manual/Ground Application  
**Notification Number:** Not Yet Assigned  
**Legal Location:** T.17S R.9W Sec. 11 & 12  
**Protected Resource(s):** Johnston Creek (Sm type F)

In an effort to control competing vegetation and promote conifer plantation growth, Rosboro intends to treat various species (namely big leaf maple). This will be a ground-based "hack and squirt" operation.

Treatment will likely occur within 100 feet of the identified protected resources, but will stay outside of the overstory retention area associated with the respective RMA. Chemicals will be applied in accordance with respective product labels and will not be stored, mixed or batched within 100 feet of any waters.

The contents of this written plan are expected to comply with the requirements for the operation adjacent to the disclosed protected resources, and the protection measures described herein are believed to achieve the objectives of the Forest Practices Act. Please let me know if you have additional questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael S. Williams".
