Notification Comments: Can also contact on cell at 541-914-1771. My goal is to remove & sell blow down logs and to thin some logs to improve the stand. I pull them with my John Deere 4WD Rubber tire tractor. No new roads will be created. The is no water or wetlands in the area to be thinned. I do not have a 500 gal water truck, but I always have fire extinguishers and a 5 gal bladder bag squirter at the work area, and I intend to be finished long before the dry fire season. A self loader truck will pick up the logs. Goal is one or possibly two truck loads.

Notification Comments: Applicant Remarks: ODF has been given previous Notification of this operation (2011-781-00442). The Applicant, however, has added acreage to the unit by re-configuring the boundary to account for the 4-year green-up of a previous unit located along the southern edge of the western portion of this Battle 6 operation (previous unit was associated with Starker-the prior owner of the property). As such, a new Notification and Written Plan is being provided. The new operation is at least 300 feet from the remaining two recent units in the area - "Battle 5" (2009-781-50173) and "Battle 7" (2011-781-00443). Total acreage shown on page 2 includes the wildlife leave tree areas. Type F designation is based upon ODF's stream layer, ODF's Fish Modeled Habitat, and Bob Johnson's ODF Inspection Report dated 08/24/11.
