Dear Brian:

This written plan will insure the protection of Jordan Creek and its tributary in the SWNE, SENE, NWSE, NESW and NESE of Section 9, Township 19S; Range 5W.

Backpack and ATV sprayer applications will be made to Scotch Broom, and Evergreen and Himalayan (Armenian) blackberry plants and a small amount of poison oak within the area shown on the attached map.

No applications will be made closer than 10 feet to the high water mark and native vegetation other than poison oak will not be treated.
